

Curriculum Vitae, Bryan Hain

PROFILE

I am a self-taught web developer from Berlin with a passion for creating stunning websites and writing clean code. My current focus is in learning Three.js so that I am also able to create 3D animated websites in the future. Outside of development my hobbies consist of boxing, cooking healthy dishes and going to the cinema.

WORK EXPERIENCE

FRONTEND DEVELOPER, MICROMERCE

JAN.2022 - JUN.2022

Micromerce is a company which offers software solutions to companies by offering a software-development-kit as a service. My main task at Micromerce was to help optimize and implement various website layouts using SCSS. I also supported with doing customers data transformations in TypeScript and wrote unit tests for React components using Testing-library.
